3. Build a larger console to hold a multichannel speaker system and two touch screens for the HW software. 4. Build a proper organ bench. IMPORTANT NOTICE: I do not recommend the solution I chose for making the keyboard console. It works, but there are better and easier ways to make this kind of console.

## **Pipe Organ Trader**

The manuals are set into the organ console (or "keydesk"). The layout of a manual is roughly the same as a piano keyboard, with long, usually ivory or light-colored keys for the natural notes of the Western musical scale, and shorter, usually ebony or dark-colored keys for the five sharps and flats. A typical, full-size organ manual consists of ...
