### Bringing Nature Home | Doug Tallamy | Growing a Greener World®

Bringing Nature Home, Native Plants / April 6, 2020 May 14, 2020 For gardeners, this is a busy time of year. Depending on where you are in your gardening journey, (and it truly is a journey), you may be looking at flats of seedlings in your window (or green house, if you're lucky!), placing orders from a nursery, or planning to attend a local plant sale.

### Bringing Nature Home - Shirley Heinze Land Trust

Bringing Nature Home has sparked a national conversation about the link between healthy local ecosystems and human well-being, and the new paperback edition — with an expanded resource section and updated photos — will help broaden the movement.

### Bringing Nature Home - California Native Plant Society

Planting native plants in your own garden can make a real difference. In a developed landscape, natural areas are separated by roads, utility corridors, agricultural land, and residential neighborhoods – all potential barriers to the movement of animals, and the plants they depend on. Native plants in any of these settings can provide safe passage ...
