It may seem overwhelming when you think about how to find and download free ebooks, but it's actually very simple. With the steps below, you'll be just minutes away from getting your first free ebook.

## Ping Loft Chart

Your PING iron static fitting recommendations for lie angle and length are determined using the PING Color Code Chart (below) using a combination of your height and wrist-to-floor measurement (first wrist crease). We recommend you take your static recommendations to a certified PING Fitting Specialist for a dynamic fitting session to further ...

## PING - Iron Color Code Chart

Understanding the ping colour chart and colour code system used by Ping will enable you to select a set that best suits your game. Ping's unique colour code refers to lie angle, which is the angle between the clubs shaft and the sole of the club, in relation to its length.

## Ping Dot System - Fitting Chart & Colour Codes

PING offers a variety of grip sizes and styles to fit different hand sizes and texture preferences. Since grip size influences your wrist action, and therefore the direction of your shots, it is commonly used by fitters to affect ball flight.

## G5 Iron Specs - Swing First Golf

2. Know your pitching wedge loft. If it's 45 degrees or less, add three more wedges that are spaced apart by no more than 4-5 degrees each. So generally think about putting in a gap wedge that's ...

## Pitching, Gap, Lob & Sand Wedge Lofts: Everything you need ...

Power Spec Loft is a fitting option for players looking to boost their iron distance or decrease spin to hit a desired trajectory window. The Power Spec is a custom-designed loft configuration that delivers a power boost in a calculated fashion without sacrificing the integrity of the club's design.

## PING - Irons

The proprietary PING graphite shaft is a no-upcharge option in the G710 iron and offers the lightest weight and max trajectory height available in a PING iron shaft. A more active tip in the 43-gram shaft delivers higher trajectories and best matches golfers with slower swing speeds.

I haven't been able to find a great resource online that explains the new adjustment on the Ping G410 driver. I'm not much of a tinkering geek, so I'm a bit confused. For example, the Ping site states up to 3\* flat from standard, but the chart does not suggest that. Please see below and help me unde...

Golfers used to have one or two wedges in their golf bag -- the pitching wedge, which is included in most sets of irons, and the sand wedge. In the last 20 years, club manufacturers have strengthened the irons by decreasing loft and, thereby, creating more distance with each club. In other words, a pitching wedge has a loft that is similar to that of an older 9-iron.

### **What Are the Lofts of Golf Wedges? | Golfweek**

The Ping G410 have a lesser offset than the Ping G400 by 10% that makes it a more forgiving golf club. The Ping G410 feature a smaller blade length and a more refined shape than the Ping G400 that increases its visual appeal for players who want a classy looking golf club. The Ping G400 appear to be chunkier at the top and has a wider sole.
