Punnett Square Practice Quiz & Answers to Learn » Quizzma

List the parent genotypes, draw and fill in a Punnett square, and then list the offspring genotypes and phenotypes. 1. 2. A homozygous dominant brown mouse is crossed with a heterozygous brown mouse (tan is the recessive color).

Punnett Square Answer KEY - Studyres

Incomplete dominance occurs when a hybrid cross of two true breeding parents does not resemble either one of the parents but instead resembles a blend of the two. For example, when a homozygous red Snapdragon is crossed with a homozygous white Snapdragon, all of the heterozygous offspring are pink. a. Show this cross in a Punnett square.
