## Rights

Sexual and reproductive health and rights or SRHR is the concept of human rights applied to sexuality and reproduction. It is a combination of four fields that in some contexts are more or less distinct from each other, but less so or not at all in other contexts. These four fields are sexual health, sexual rights, reproductive health and reproductive rights. In the concept of SRHR, these four fields are treated as separate but inherently intertwined. Distinctions between these ...

## **Sexual and reproductive health and rights - Wikipedia**

There are many barriers to sexual and reproductive rights, including obstacles to access health services, information and education. But underlying these problems is discrimination. Women and girls and people from marginalized groups, such as gay men, lesbian women and trans people or people from so called "lower" castes, people living in poverty, or minorities, risk
