Sap R3 Interfacing Using Bapis A Practical Guide To ...

The classic way for communication between non-SAP systems and SAP is, according to SAP itself, the RFC interface. RFC interfaces are also often used to communicate between SAP systems itself. Put simply, RFC is a remote function call. The RFC interfaces for integration have been available since SAP/R3 until today.

SAP Interfaces overview: IDoc, RFC, BAPI, REST, SOAP

Starting with release SAP R/3 4.6C, the "old" transactions and BAPIs related to business objects Purchase Order and Purchase Requisition were replaced by new single-screen - so called Enjoy - transactions. ME51 has been replaced by ME51N. The old BAPI_REQUISITION_CREATE, BAPI_REQUISITION_CHANGE have been replaced by BAPI_PR_CREATE, BAPI_PR_CHANGE.

How to create Purchase Requisition from a BAPI - ERP SCM ...

method of an SAP Business Object. Thus defined, the BAPIs become standard with full stability guarantees as regards their content and interface. Use With regard to SAP Business Objects and their BAPIs, the BOR has the following functions: Provides an object oriented view of R/3 System data and processes.

BAPI Programming

Advantages of Using BAPIs Use BAPIs are standardized methods of SAP Business Objects that enable customers and third parties to integrate their software components with the R/3 System and the Business Framework. This section lists some of the advantages of using BAPIs as a means of accessing the SAP Business Objects.

SAP R/3 Document : Introduction To BAPI'S

Since release 4.5, new functionality in the PP-DMS interface will only be accessible with the BAPIs. The functions of the CAD dialog interface will not be enhanced any more. Recommendation: New integrations for release 4.5 using the PP-DMS interface shall only use the BAPIs. Existing integrations shall be converted to BAPIs if possible.

BAPIs for the Document Management System - SAP Q&A

Are you using BW or IIM or another way to get/load information into R/3? It depends of where is the time be consuming on R/3? It depends of where is the time be consuming on R/3? It depends of where is the time be consuming on R/3? You could use the SAP Adapter configured on load balancing and also you could have multiple connections to SAP. Hope this help, Marco >From: "Ricky via tibco-l" <tibco-l@Groups.ITtoolbox.com>
