In a numerical reasoning test, you are

required to answer questions using facts and figures presented in statistical tables. In each question you are usually given a number of options to choose from. Only one of the options is correct in each case. Test takers are usually permitted to use a rough sheet of paper and/or a calculator.

Numerical Reasoning | Example Questions | SHL Direct

SHL/CEB tests typically work using banks of questions. If there are 20 questions on a test, those 20 might be randomly chosen from a question bank of 200 that changes for each intake. If you can access at least a substantial portion of that question bank before you take the test, then you can prepare the answers in advance, significantly increasing your chance of scoring highly.
